## FORWARD

*This book will provide the teacher with an invaluable collection of creative ideas which will enhance the lessons and provide active involvement for scholars in the classroom. Every care has been exercised to give sufficient details to make each activity simple to complete and we are confident that by using and adapting these ideas, the lessons will be impressed more readily upon young minds and the time spent in Sunday School will be more enjoyable for both teacher and scholar.*

*We extend our appreciation to those who have contributed. This handbook is the result of many hands and heads applied to the development of its contents over many years of Sunday School experience. Once again we are thankful to our Sister Barbara Bracey for her major contribution of ideas, and Brother Mike Barr for his labours in preparing the final draft.*

*This book covers the First of Five Stages, to the theme, 'The Preparation of the Kingdom', and is designed to be used in conjunction with the lesson notes of the same theme.*

*The material presented has been designed to cover a wide range of ages and therefore every Primary and Junior teacher is encouraged to make full use of the book in preparing their lessons. A wealth of additional ideas are covered in the other stage handbooks and each teacher should ensure they have their own copies as many ideas are easily adaptable to other lessons.*

*Our desire is that this book will encourage teachers in their important work of leading our children into a greater knowledge and appreciation of the Hope we share. We trust that it will assist in making the classroom a vibrant and enjoyable centre for teaching God's Word and make a lasting impression upon minds of those in attendance.*

# HOW TO USE THIS BOOK

## General

A quick perusal of the book will show that it is divided into 25 lessons which correspond to the lessons in the Stage 1 Primary Notes.

In each section you will find some helpful ideas on how to convey the lessons to your scholars. We have endeavoured to provide a range of ideas throughout the book, from the simple to the more complex for advanced scholars, to give scope for teachers to adapt the material according to the age and ability of their students.

## Preparation

The success of a Sunday School class depends on the time and effort put in beforehand by the teacher, together with the best presentation possible. The scholar generally is very observant, and knows when preparation has been conscientiously done. To this end we encourage teachers to give ample time to the preparation of their class work. At least one night, and possibly two, may be necessary in making ready the Sunday School lesson to be presented. Activity work requires careful forethought and practice by the teacher. It is very necessary to ensure that you have the right tools for the job before you arrive at Sunday School.

The ideas contained in this book are not intended to stifle the individual teacher's ideas - these are always best - but they are designed to give teachers who are looking for some new thoughts creative ideas in ready reference form. The section "How to make it" is generally self explanatory. You should work out how much of the activity you will need to prepare beforehand, as this will vary according to the time available in the class, and the age and other limitations of the scholars.

Before you begin to choose an idea for a lesson, browse through the rest of the book. You will find that many of the different ideas can be used or adapted for a number of lessons.

## TOOLS AND MATERIALS

It is a good idea to have a box just for your craft accessories and materials.

### Tools

Here are a few suggestions as to what tools you may need for constructing the craft ideas in this book.

- \* Scissors
- \* Craft knife (the type with disposable blades)
- \* Lampshade glue. (This is an excellent glue when you are dealing with fabric or paper. It does not cause wrinkling when drying, as is often the case with other wood and paper glues.
- \* Ruler
- \* Pantograph (these are appearing on the market again and are a very useful tool for enlarging or reducing outlines and tracings that you may wish to copy. Obtainable from art supplies and toy shops).
- \* Pens and pencils
- \* Compass
- \* Carbon Paper (very handy, especially if a photo copier is not available for your use).

### Materials

These vary from lesson to lesson but, here are a few which are used frequently.

- \* Scraps of material, especially white
- \* Wooden clothes pegs (now available in craft shops)
- \* White card (sometimes called "pasteboard"). Usually available from stationers in large sheets
- \* Cardboard boxes (shoes, shirts etc.)
- \* Crepe paper
- \* Cellophane
- \* Ice-cream sticks
- \* Sand-paper
- \* Gold and silver wrapping paper or aluminium foil
- \* Drawing pins, safety pins and cellotape

## **In Class**

The lesson being taught is often reinforced by using an activity similar to those contained in this book. Many of the ideas presented here are best prepared before class with only the interesting finishing touches being undertaken in class with the aid of the scholars.

It is important for the teacher to be well prepared with all the tools and materials required to complete the task chosen. As the activity is undertaken, it is a valuable time to reinforce the lessons. There are times when something does not go quite smoothly and someone's activity just does not turn out right. It is a good idea to have a spare hidden in your bag to avoid disappointment. Scholars should be allowed to take home their activities as often as possible. It reminds them of the lesson and also gives parents a lead as to what was done in Sunday School.

### **Other useful Resources:**

Also available from the CSSA are:

- Dramatised CDs of each lesson produced professionally. These are useful in summarising each lesson and help to reinforce the stories. These are presented for each of the 5 Stages respectively.
- A series of Bible Stories covering many of the major stories presented on CD.

## **IN CONCLUSION**

It is important as teachers not to fall into a carefree, easy, preparation syndrome. The first few lessons are, of course, the hardest, but practice helps the teacher become more proficient. Some who may not feel adept at handcraft will soon find, with the aid of suggestions in this book, that they are building up quite a store house of clever ideas.

Results come through dedicated work and a lot of time. The activities selected should not be chosen merely because they may be the simplest or easiest to prepare, but rather because they are the very best to enable you to present the lesson in a manner that will make a lasting impression on the scholars in your class.

May Yahweh bless this most vital work.

- \* CARD CAN THEN BE DECORATED AND COLOURED SIMILAR TO ABOVE.
- \* HOPEFULLY THE NEWLY CREATED WORLD WILL SPIN!

# FINGER-PRINT FUN

IT MIGHT BE MESSY, BUT SCHOLARS WILL LOVE IT - AND SOME TEACHERS TOO!

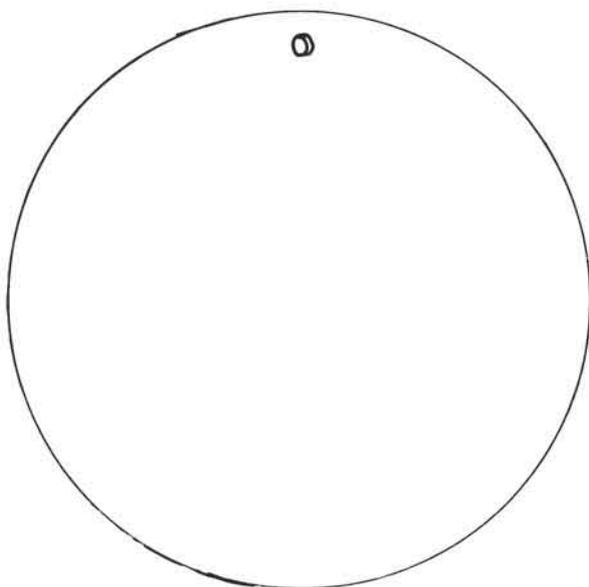

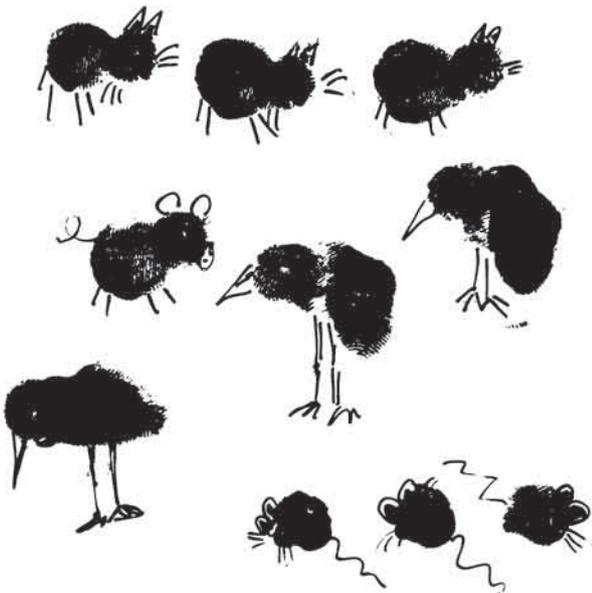

## MATERIALS REQUIRED.

POSTER PAINTS ● AN OLD PLATE ● PAPER ● PROTECTIVE SMOCK OR SHIRT FOR PARTICIPANTS.

## HOW TO MAKE IT.

MIX THE PAINT TO A THICK CONSISTENCY. DO NOT PUT A LOT ON THE PLATE, JUST ENOUGH TO MAKE A VERY THIN LAYER. IF THERE IS TOO MUCH PAINT, THE FINGER PRINTS WILL NOT SHOW. IT IS ADVISABLE TO HAVE A PRACTICE SHEET HANDY TO TEST THE PRINTS.

BELOW ARE A FEW EXAMPLES OF THE PICTURES THAT CAN BE MADE.

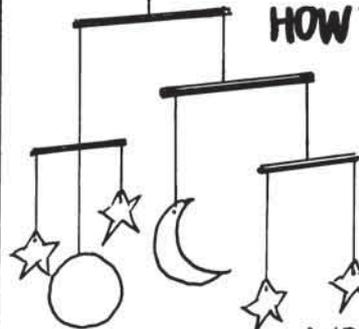

# MOBILE

## MATERIALS REQUIRED.

METAL COATHANGERS OR VERY THIN WOODEN DOWEL ● FISHING LINE OR WOOL ● GLUE ● CARD ● GLITTER OR METALLIC PAPER (GOLD & SILVER)

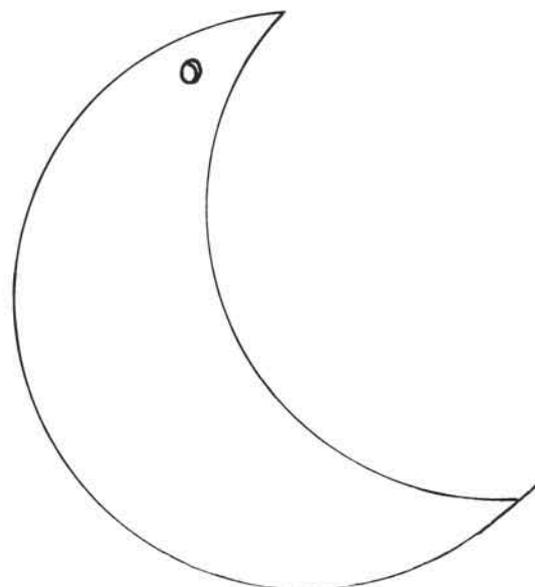

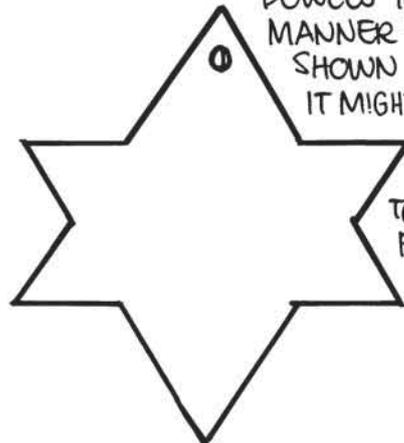

## HOW TO MAKE IT.

CUT 4 PIECES OF DOWEL OR WIRE TO ABOUT 6 INCHES OR 15 CM. COPY THE PATTERNS OF THE SUN, MOON AND STARS PROVIDED BELOW AND GLUE ON GLITTER

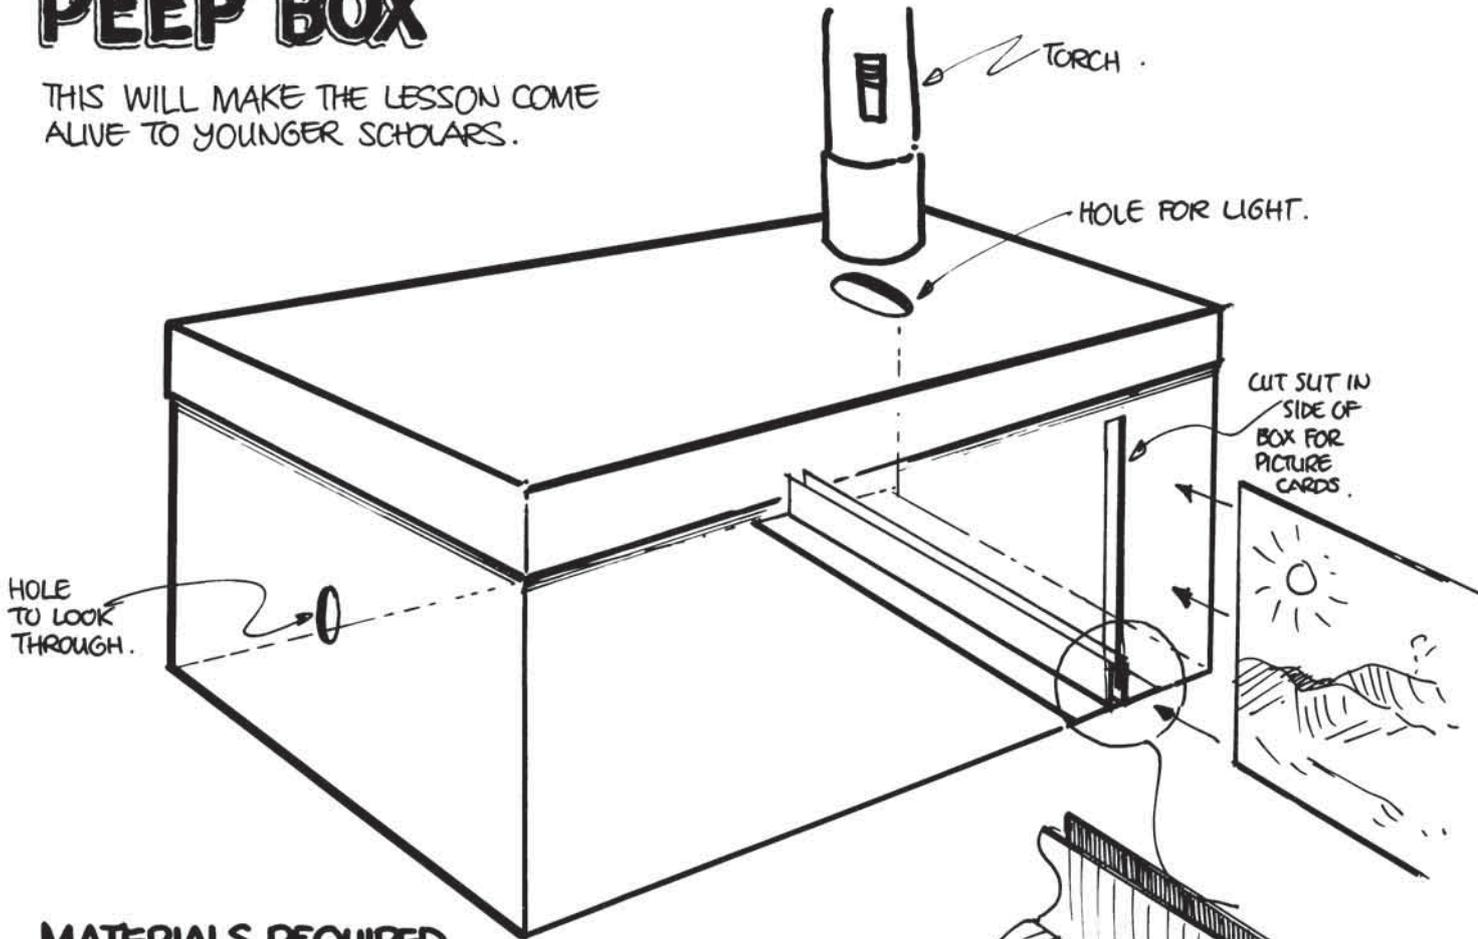

(SILVER FOR MOON AND STARS, GOLD FOR THE SUN). ATTACH THE SHAPES TO PIECES OF FISHING WIRE AND THEN TO THE DOWELS IN A SIMILAR MANNER TO THAT SHOWN ABOVE.

IT MIGHT TAKE A LITTLE WORKING OUT TO GET THE RIGHT BALANCE.

# PEEP BOX

THIS WILL MAKE THE LESSON COME ALIVE TO YOUNGER SCHOLARS.

## MATERIALS REQUIRED.

SHOE BOX OR SIMILAR SMALL BOX WHICH YOU MAY HAVE TO MAKE YOURSELF. ● CRAFT KNIFE ● GLUE ● BLACK PAINT OR PAPER ● PICTURES FROM OLD MAGAZINES OR BOOKS WHICH WILL DEPICT THE DIFFERENT DAYS OF CREATION ● TORCH. ● EXTRA CARD.

## HOW TO MAKE IT.

LINE THE BOX WITH BLACK PAPER OR PAINT WITH BLACK PAINT. CUT A SLIT IN THE SIDE OF THE BOX TO ALLOW FOR PICTURE CARDS AS IS SHOWN IN DIAGRAM.

ADJACENT TO THIS SLIT IN THE SIDE OF THE BOX, GLUE TWO FOLDED PIECES OF CARD TO THE BASE. THIS WILL ACT AS A GUIDE TO THE PICTURE CARDS.

CUT OUT 7 PIECES OF CARD SLIGHTLY WIDER THAN THE WIDTH OF THE BOX AND SLIGHTLY SMALLER IN HEIGHT THAN THE SLIT YOU HAVE MADE IN THE SIDE OF THE BOX.

ONTO THESE CARDS GLUE ON PICTURES FROM MAGAZINES ETC. TO DEPICT THE EVENTS OF EACH DAY. THEY MAY TAKE SOME FINDING BUT IT WILL BE WORTH THE EFFORT.

THIS PEEP BOX WILL WORK BEST IN A DARKENED ROOM, IF THIS IS POSSIBLE.

FOR THE 7<sup>th</sup> DAY PERHAPS AN OUTERSPACE VIEW OF THE EARTH.

TWO FOLDED PIECES OF CARD GLUED ONTO THE BASE WILL PROVIDE A GUIDE FOR EACH PICTURE CARD.
